(Los Angeles, CA) – August 19, 2021 – Bird Rides, Inc. (“Bird” or the “Company”), a leader in environmentally friendly electric transportation, today announced financial results for the second quarter ended June 30, 2021 that exceeded the Company’s expectations. Specifically, during the second quarter we drove a 477% increase in revenue over the same period last year and a 36% outperformance relative to our expectations. ## Non-GAAP Financial Measures

This press release contains “Ride Profit,” “Ride Profit Margin,” and “Adjusted EBITDA” which are measures that are not prepared and presented in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Ride Profit reflects the profit generated from rides in our Sharing business after accounting for direct ride expenses, which primarily consist of payments to Fleet Managers. Other ride costs include payment processing fees, network infrastructure, and city permit fees. We calculate Ride Profit (i) before vehicle depreciation to illustrate the cash return and (ii) after vehicle depreciation to illustrate the impact of the evolution of our vehicles. Ride Profit Margin is Ride Profit divided by the revenue we generate from our Sharing business. We use Ride Profit Margin for financial and operational decision-making and as a means to evaluate period-to-period comparisons. We believe that Ride Profit Margin is a useful indicator of the economics of our Sharing business, as it excludes indirect unallocated expenses such as research and development, selling and marketing, and general and administrative expenses. Adjusted EBITDA is a supplemental measure of operating performance used to inform management decisions for the business. We define Adjusted EBITDA as net profit or loss, adjusted to exclude (i) interest income, net, (ii) provision for/benefit from income taxes, (iii) depreciation and amortization, (iv) vehicle count adjustments, (v) stock-based compensation expense, (vi) tariff refunds, (vii) other non-recurring, non-cash, or non-core items, and (viii) other income (expense), net, including foreign currency. There are a number of limitations related to the use of non-GAAP financial measures, including Ride Profit Margin. In light of these limitations, we provide specific information regarding the GAAP amounts excluded from Ride Profit Margin and evaluating Ride Profit Margin together with gross margin, the most directly comparable GAAP financial measure. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, see the appendix to this press release. For more information on these non-GAAP financial measures, please see the registration statement on Form S-4 (File No. 333-256187) (the “Form S-4”) filed by Bird Global, Inc. (“Bird Global”) and available publicly on the website of the Securities and Exchange Commission (the “SEC”) at [www.sec.gov](http://www.sec.gov).
